

How the Scheme Works

Monthly rental instalments are paid for up to 18 months. The first two months rental fees are paid together at the outset as a non-refundable deposit. From the third month, payments are made by easy to set up Standing Order. After 18 months, the Rental Purchase Plan Price (our normal selling price + £50.00) has been paid in full and the instrument becomes yours.

Alternatively, you can return the instrument at any time and stop paying the monthly rental fee.

Or you can choose to buy the instrument outright before the end of the full hire period and once all monies paid to that date have been deducted from the original rental purchase plan price, you will receive a full 5% settlement discount off the remaining balance.

E.g. After 6 months rental you can buy for: Rental Purchase Plan Price less deposit and 4 months rental, less a further 5%
